

**CITY OF INGLEWOOD**  
**NOTICE OF INTENT TO ADOPT**  
**A MITIGATED NEGATIVE DECLARATION**  
**FOR**  
**CENTURY BOULEVARD MOBILITY IMPROVEMENT PROJECT**

The City of Inglewood Department of Public Works (City) has prepared an Initial Study and Mitigated Negative Declaration (IS/MND) to assess the proposed project effects to the environment and the community. The proposed project is located on 3.1 miles of Century Boulevard between La Cienega Boulevard and 200 feet east of Van Ness Avenue. The proposed project would reduce the existing six-lane Century Boulevard to four lanes from Inglewood Avenue to Prairie Avenue and to five lanes from Crenshaw Boulevard to 5th Avenue; add exclusive right and left turn lanes; install raised landscaped medians, traffic signal and street light upgrades, crosswalk and sidewalk improvements, and concrete bus pads; and enhance parkway landscaping.

The purpose of the project is to reduce existing and projected congestion levels of traffic traveling in both directions on Century Boulevard; improve motorist, bicycle, and pedestrian safety; improve drainage to prevent flooding within the roadway; enhance pedestrian connectivity between the residential and commercial areas, including ramp installation compliant with the Americans with Disabilities Act (ADA) of 1990 requirements; and incorporate corridor parkway features through enhanced streetscapes.

The project site is not included on the following hazardous waste site lists pursuant to Section 65962.5 of the Government Code: the DTSC EnviroStor database, Cortese list, and Superfund site list. However, eight sites with open cases were identified in the State Water Resources Control Board's GeoTracker within the project limits. Six sites are currently designated as Open-Assessment, undergoing site characterization, investigation, risk evaluation, and/or site conceptual model development. Two sites are currently designated as Open-Remediation, having an approved remedy and/or implementing the remedy under an approved clean-up plan for the site.

The IS/MND assesses the proposed project effects to the environment and the community. All potentially significant effects identified could be mitigated to a less-than-significant level. The IS/MND is being circulated for a 30-day public review period. The review period will start October 22, 2013 and end November 21, 2013.

The City has scheduled a public meeting to discuss the environmental analysis of the proposed project on October 30, 2013 at 6:00 p.m. to 7:30 pm at 3883 W. Century Boulevard, Inglewood, CA 90303 (Hollywood Park Casino, Breeder's Cup Room, 1st Floor).

A copy of the document is available for public review on-line at <http://www.cityofinglewood.org/> and at the following locations:

Location	Address	Hours
City of Inglewood Department of Public Works	One West Manchester Boulevard, 3 <sup>rd</sup> Floor Inglewood, California 90301	Monday–Thursday: 7:30 a.m. – 5:30 p.m. Closed: Friday–Sunday
Inglewood Main Library	101 West Manchester Boulevard Inglewood, California 90301	Monday–Wednesday: 11 a.m. – 8 p.m. Thursday: 11 a.m. – 6 p.m. Saturday: 10 a.m. – 2 p.m. Closed: Friday and Sunday
Crenshaw-Imperial Branch Library	11141 Crenshaw Boulevard Inglewood, California 90301	Monday, Tuesday, Thursday: 11 a.m. – 6 p.m. Closed: Wednesday, Friday–Sunday

Interested parties may submit their comments until 5:00 pm on November 21, 2013 to:

Keith Lockard  
 Attn: City of Inglewood Century Boulevard IS/MND  
 City of Inglewood, Department of Public Works  
 One West Manchester Boulevard, 3rd Floor  
 Inglewood, California 90301

Responses to written comments received during the public review period will be addressed and considered by the City Council for approval. If you require additional information please contact the Department of Public Works at (310) 412 5333 or submit questions and comments by email to [klockard@cityofinglewood.org](mailto:klockard@cityofinglewood.org) or fax to (310) 412-5552.
